### Cubicle as Delivered to Site

- Assembled Cubicle delivered in protective packing
- LED Light\*
- Extraction\*
- Shower Valve and Fittings\*
- Shower Door\*

Unless stated otherwise, all parts are to be fitted on site by installers.

\*Optional, supply only accessories. Please refer to manufacturers' installation instructions.

#### HANDLING GUIDELINES:

- Units are heavy and should be handled by two people when dismantling and assembling.
- Dismantle at the time of delivery if needed for access.
- Extra caution to be taken to protect tongue and groove.

### Cubicle Dismantling Instructions

#### NOTE:

- Spare screws and cover caps are provided in an envelope.
- Take care not to lose any screws removed.
- Do not mix sections from different units.
- No. of sections may vary by design.

1. Remove backstraps.

4. Lift sections in sequence from top to bottom.

2. Take off side fascias by removing cover caps and screws.  
Please note the screws on top fascia must also be removed.

3. Separate soap dishes by removing cover caps and screws.

### Cubicle Installation Instructions

1. Plumb base section and check for leaks.

2. Position the base and check level (usually achieved with levelling compound or packers).

3. Slot in 1<sup>st</sup> middle section and secure with tapping tool and mallet.

4. Slot in 2<sup>nd</sup> middle section and secure with tapping tool and mallet. Repeat with 3<sup>rd</sup> and 4<sup>th</sup> middle section if applicable.

5. Attach  $\frac{3}{4}$  backstraps.

Attach  $\frac{3}{4}$  aluminium backstraps if applicable.

6. Slot in top section and secure with mallet.

7. Secure top and last middle section by joining soap dishes with screws and fit cover caps.

8. Fit side fascias and fix with screws and cover caps from envelope. Be sure to also use previously removed screws. Note the screws on top fascia must also be used.

9. Refer to manufacturer's installation instructions to plumb shower fittings.

10. Refer to manufacturer's instructions to fit door. Adjust door position to ensure that shower door profile follows step profile.

NOTE: Manufacturer's guide may show the door resting on top of step. For the Taplanes cubicle, ensure that door is resting on the floor or door supports.

11. Refer to manufacturer's instructions to fit lights and extractors.

Removing access panel.

## Cubicle Panelling Instructions

### Stud and Trench Fascias

#### 0mm Stud Type

Add panelling around fascias and ensure that the panelling meets the fascia trenches.

**WARNING!**  
Do not screw through joint sections.

#### 50mm Stud Type

Add studwork around fascias.

Add panelling around fascias and ensure that the panelling meets the fascia trenches.
